

# LABYRINTH FILTER

## DESCRIPTION

Droplet separator in polished AISI 304L stainless steel with cyclonic effect, capable of separating coarse-sized water and oily vapors.

This system is useful for safeguarding the functionality of the components installed subsequently, such as electric fan, various deodorizing systems and / or activated carbon.

Available in 2 models.

Special features: it has no welded parts and is totally washable.

# TECHNICAL DATA

Model	Dimensions W x L x H (mm)	$q_v$ (m <sup>3</sup> /h)	$\Delta P$ (Pa)	Total weight (Kg)
CF-FLX 600	592 x 592 x 34	2.600	200	5,2
CF-FLX 300	592 x 287 x 34	1.300	200	2,6
